MICRO-BEAD LIPSTICK. LIPSTICK THAT PROTECTS AND STICKS

IMAAGE® lipstick is rich, creamy and protective. The Micro-bead technology continuously releases conditioners to keep lips soft and color fresh for hours

Benefits of using IMAAGE® Lipstick

- Micro-bead lipstick continuously conditions and protects lips.
- Bold Colors and Optimal comfort
- Creamy soft cushion texture evenly coats lips
- Polymer technology retains moisture in lips and resists creasing and smudging.

RESULTS: Rich Creamy Color and Protection all in one.

APPLICATION: First apply IMAAGE® Marine Lip Crème – it not only softens the lips but helps to prevent bleeding and helps the lipstick glide on even easier. Add a very light coat of IMAAGE® foundation to the lips – this will maximize the staying power of the lipstick and also help even out the color. At the time of applying IMAAGE® lipstick relax mouth in such a way that it opens slightly. Stretch lips and starting at the center of top or bottom glide color to corners. With the aid of a lip brush apply lipstick starting from the center of each lip and gradually work outwards to fill in the lipstick on lips.

For a deeper effect of lipstick, press lips gently against a tissue in such a way that it does not smudge or remove too much lipstick. Then apply another coat.

Insert a finger inside mouth and withdraw it slowly. This will help prevent lipstick from sticking to teeth and remove excess lipstick from inside lips

INGREDIENTS: Ricinus Comminis (Castor) Seed Oil; Kaolin, Isopropyl Lanolate, Isopropyl Palmitate, Ceresin, Talk Paraffin, Cera Mircocristallina (Microcrytalline Wax), Caprylic/Capric Triglyceride, Cetyl Lacate, Acetylate Lanolin Acohol, Silica, Dimethicone, Dimethicone Crosspolymer, Polymethyl Methacrylate, Foilic Acid, Tocopherol, Propylparaben, Butylparaben, Ascorbyl Palmitate, Parfum.
