TINTED MOISTURIZER WITH SPF 15 ESSENTIAL & VITAL IMAAGE GLOW

This lightly textured tinted facial moisturizer protects and hydrates skin with Vitamin E and Hyaluronic acid to give skin a healthy vital IMAAGE® glow. Daily use provides a full spectrum sun protection and helps protect against premature aging and skin cancer. It can be worn alone or under make-up and is gentle enough to be used around or on the eyelids.

Benefits of using this Tinted, Protective formula:

- Easily absorbs, sheer tint blends into all skin tones.
- Provides full spectrum protection.
- Gives skin a healthy glow.
- Replenishes skin moisture.

KEY INGREDIENTS:

- Titanium Dioxide: IMAAGE® utilizes a unique, micro-fine particle to act as a physical block in protecting against long-wavelength ultraviolet radiation. This IMAAGE® moisturizer helps to prevent skin cancer and skin aging changes.
- Vitamins A & E: These antioxidants nourish skin and increase cell turnover, encouraging gentle cell exfoliation.
- Hyaluronic Acid: Replenishing this naturally occurring skin hydrator. Amazingly this under-utilized natural ingredient can hold 1000 times its weight in water and acts like a sponge within your skin, boosting natural skin hydration and diminishing the look of fine lines and wrinkles.

RESULTS: This rich formulation moisturizes, colors and protects your skin

SKIN TYPE: All skin types

APPLICATION: used once or twice daily. Apply generously on freshly washed skin to entire neck and décolleté using gentle upward strokes. Apply at least 30 minutes before sun exposure. Do Not apply an SPF on top of this unless it is a higher protection than this IMAAGE® product.

INGREDIENTS: Active: Titanium Dioxide; Inactive: Water, Glycerin, Stearic Acid, Isodecyl Neopentanoate, Dea Cetyl Phosphate, Isistearyl Stearoyl Stearate, Caprylic/ Capric Triglyceride, Cetyl Esters, Tocopherol, Retinyl Palmaitate, Triethanolamine, Squalane, Sodium Hyalluronate, Dimethicone, Carbomer Iron Oxides DMDM Hydantoin, Propylparaben, Methylparaben
